

# WebDemo

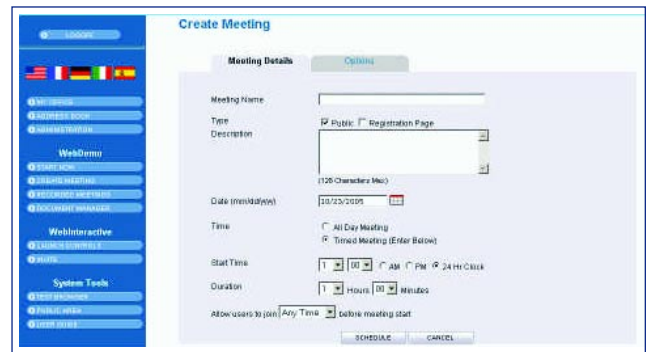

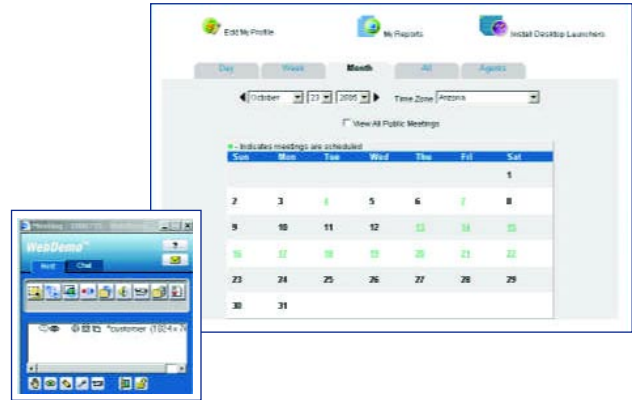

## Meet. Present. Collaborate. Support.

### Conducting Online Meetings Has Never Been Easier or More Affordable

Holding an online meeting with 1 to over 100 people or more, anywhere, anytime, has never been easier. Right from your desktop you can conduct interactive online meetings with your audience by using the combination of multi-point video, file transfer, polling and quizzing, desktop sharing, annotation, co-browse and record and playback features.

Now more than ever, people need to close more business, do it faster, and do it for less! Linktivity's WebDemo is a rich featured communications tool that allows companies to do just that – sharing information with anyone in, in a fraction of the time (and at a fraction of the cost) that it would take to hold a face-to-face meeting or event.

Linktivity WebDemo is available in 3, 5, 10, 15 or more concurrent user licenses. As an example, a 10-user license package permits any 10 people to be connected at one time, from any PC.

### Minimum System Requirements

**Processor** Pentium 4, 1.0 GHz or higher

**Hard Drive** 1 GB available disk space

**RAM** 256 MB for 10 concurrent users; 512 MB or higher for more than 10 users

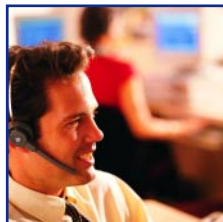

**OS** Windows 2000 Server or Windows Server 2003 Server Edition

**Web Site** Internet Information Services (IIS)

**Controls** Internet Explorer 5.x or later, or Netscape 7.x

**Java** Microsoft Java Virtual Machine (JVM) 5.x or Sun Java 1.4.x

**Protocol** TCP/IP with static IP address or static DNS  
**Connection Bandwidth Requirement** Minimum 76kbps per concurrent user required (56kbps connection per user plus 10kbps network overhead per user). For example: A meeting, or set of meetings with a total of 10 connections to the server would require an available bandwidth connection of approximately 760kbps, or 1/2 of a T1 connection.

# WebDemo Features

## Desktop Presentation

Spontaneously share any area of your PC desktop with meeting participants.

## Application Sharing

Jointly control and modify applications and documents with your remote audience.

## Security

Dynamic CAST 128-bit encryption, SSL support, private meetings, password protection, meeting lockout and more.

## One Click Meetings

Instantly start meetings with just one click on the Linktivity's WebDemo icon which can reside on your Desktop/Office/Outlook® or I.E. toolbars.

## Multi-point Video Conferencing

Personalize and enhance your meetings with live, face-to-face, bi-directional video.

## Polling and Quizzing

Collaborate with your audience with true/false, yes/no, or multiple-choice questions.

## Host Transfer or Enable Remote Control

Allows you to transfer meeting control whereby the Attendee becomes the Presenter or give control of any application on your desktop to remote participants.

## Record and Playback

Record all meetings for future reference, demonstrations or training.

## File Broadcast

File Broadcast allows you to broadcast files to any or all Attendees.

## Outlook® E-mail Integration

A meeting session can be scheduled in Outlook® Calendar from an e-mail produced by the Host.

## True Color Representation

Colors between 256 colors and True Color (16-bit to 24-bit) are available for added enhancement to the presentation.

## Reports

Generate daily, weekly and monthly reports to track key matrixes or industry standards.

## Document Management

Document Management allows you to place files in public or private areas for future use.

## Integration

Leverage the power of complete LDAP/Active Directory/Radius Server integration enabling user authentication and easy administration.

## Transparency Tools

To further enhance the online experience, you can use the Transparency Tools to illustrate, highlight or annotate a document during your meeting.

## Keyboard Chat

The Keyboard Chat also allows the Host and Attendees to converse privately without disrupting the meeting.

## Co-browse

This feature allows the Host to navigate the meeting Attendees to any page on a Website.

## Minimum Host and Attendee Requirements

<b>Java</b>	MVM 5.5. or Sun Java 1.4.x
<b>Connection Type</b>	56kbps with 40kbps connectivity, Broadband, DSL, Cable, T1 or Higher
<b>OS (host)</b>	Windows 98, ME, NT, 2000, XP, 2003
<b>OS (attendee)</b>	Windows 95, 98, ME, NT, 2000, XP, 2003
<b>Browsers</b>	Internet Explorer 5.5 or later; AOL 6.x or later, Netscape 7.x
